OUR
STRENGTH

ACCOMMODATION

The accommodation and integrated resorts sector makes a significant contribution to the national economy. TTF brings together owners and operators to contribute to the formation of public policy at all levels of government that will deliver a world-class range of accommodation, entertainment and recreation options for visitors across Australia.

Advisors | Casinos | Hotels | Owners & Investors | Resorts | Serviced Apartments

AVIATION

Australia's size and location mean the country is highly dependent on air transport. Since TTF's inception in 1989, aviation policy has been at the forefront of our advocacy agenda. Our membership incorporates major domestic and international airlines, airports and aviation service providers. Our reform agenda centres on improving the passenger experience, increasing aviation capacity to Australia and reducing operating restrictions at our airports.

MAJOR & BUSINESS EVENTS, RETAIL & HOSPITALITY

Australia is a leading major events destination and TTF represents the collective voice of cultural and sporting venues, promoters, suppliers, event corporations and sponsors. TTF also represents the business events sector, including bureau and convention centres. We have a proud record of nurturing industry partnerships to promote "Brand Australia", in sectors such as wine, food and retail.

TOURISM MARKETING, ATTRACTIONS & TRAVEL OPERATORS

Reflecting the crucial role of marketing in driving tourism demand, TTF has been the leading advocate in securing public funding for national, state and local tourism agencies since 1989. Equally, TTF continues to support Australia's various attractions from theme parks to national parks to cultural institutions as drawcards that drive visitation and expenditure. TTF is also a leading advocate for the cruise ship sector, which has experienced considerable growth in Australia.

TRANSPORT & INFRASTRUCTURE

TTF is working to improve the liveability of cities and regions by advocating for investment in quality passenger transport infrastructure and world-class precincts. The only national multi-modal transport advocacy group in Australia, TTF's members include public transport operators, investors, infrastructure developers and consultants. TTF also champions investment in urban regeneration and the development of active and connected precincts.
